

**CHILDREN'S ACTIONS, RELATIONSHIPS, AND EMOTIONS (C.A.R.E.)  
BEHAVIOURAL SCREENING TOOL**

The Children's Actions, Relationships, and Emotions (C.A.R.E.) is a fifty three item questionnaire/scale designed to screen for behavioural challenges in children, twenty-four to seventy-two months, within child care settings. Its purpose is to assist child care professionals in determining if additional behaviour consultative supports are recommended to promote the success of the child.

We are requesting your consent to have our staff complete the Children's Actions, Relationships & Emotions (C.A.R.E.) behaviour screening tool with your child. The results will be shared with you.
