

Niagara Child Care Centre Numeracy Project Training

September 27 & 28, 2010

Participant Comments

What did you find to be most informative and meaningful?

1
2

- Brainstorming in groups on different ways of using the numeracy resources was very valuable.
- Learning the different areas of math and the breakdown of each of the 5 skills was informative.
- The different ideas for adapting the numeracy materials for a variety of ages were very helpful.
- I enjoyed thinking outside of the box about teaching math concepts to children.

Did the training provide opportunities for you and your colleagues to brainstorm different ways of implementing the materials into your daily practice?

- Yes, our group had excellent ideas of how to use the items which we can now use with the children.
- Yes, I discovered new ideas for incorporating math in all learning centre areas.
- Yes, by working together in groups to come up with different ideas for using the math materials.

3

Do you think that having access to the numeracy kit materials and training will increase your confidence in teaching young children early math concepts?

- Yes, I am very motivated to use the resources in the numeracy kit.
- Yes, all of the ideas can be found in the numeracy kit, there are at least three ways to use every resource.
- The training has increased my knowledge of how to incorporate math activities with the children.
- These new items will make it much easier for me to teach math and geometry to the children.

Other Comments

- The numeracy kits are amazing, I feel like I won the lottery!
- The training was well done and well prepared.
- I am very eager to start using the numeracy materials and to see the results with the children.
- A generous and great kit to add to our center to enrich our teaching skills.
