Referral Information		
 Is the child currently waiting for or receiving Speech-Language Pathology services at Niagara Children's Centre? □ Yes* □ No *If yes, <u>do not</u> refer Was a referral to Niagara Children's Centre made? □ Yes □ No 		
If yes, date referred (DD/MM/YYYY):/		

How to Score the Checklist

Each age category is divided into **<u>TWO</u>** sections.

Section 1 represents skills that are expected "by" or "before" the age listed.

- Answer each question with a "yes" or "no"
- Make a referral if there are any "no" responses in this section

Section 2 questions refer to atypical communication concerns and behaviours that sometimes occur when a child is not developing communication as expected.

Most "yes" responses in this section indicate a referral is recommended. Pay particular attention to
questions that are **bolded** in Section 2. There <u>must</u> be at least 1 other "referral" response in either section 1
or 2 combined with the "yes" to the **bolded** question(s) in order to qualify for a referral.

Niagara Children's Centre Birth to School Start Speech-Language Pathology Referral Checklist – By 36 Months (3 years)

Section 1				
		YES	NO	
1	Say more words than you can count (at least 1000)			
2	Say more words every month (<u>consistently</u> adds more words to vocabulary)			
3	Consistently say a variety of phrases/sentences with 3 or more words (don't count phrases that are typically said together such as "here you go" or "I love you", "see you later"). Grammar mistakes are normal at this age If the child uses more than one language, they may use more then one language in their sentence and this is normal (e.g. "Le chien jumped on the hill").			
4	Say a variety of words from ALL of the following categories• Nouns (people, places, things)• Pronouns (e.g. me, mine, my, you)• Verbs/action words (e.g. run, jump, sing)• Position words (e.g. behind, under)• Describing words (e.g. big, pretty)• Quantity words (e.g. a little, a lot)			
5	Use words to tell about something that happened in the recent past (e.g. trip to grandparents' house, day at child care)			
6	Take 2 or 3 turns in a conversation, but may find it hard to stay on topic			
7	Understand more words than you can count (well over 1000 words)			
8	Respond with words to MANY "who", "what is he/she doing", and "where" questions			
9	Follow two-step directions that don't always happen together (e.g. "Bring me your plate and go clean up your toys")			
10	Follow SOME one-step directions they may not have heard before (<i>e.g. "Put a toy in your shoe"</i>)			
11	Enjoy interactive play with people using books OR toys			
12	Pretend by acting out everyday, familiar activities with toys involving TWO or more steps (e.g. feeds doll then puts it to sleep)			
13	 Say consonant sounds at the beginning AND end of words May not pronounce the F, V, K, G, S, Z, L, R, SH, CH, J, and Th properly at this age and this is normal It is normal to substitute another sound for one of these sounds, but not leave the sound out completely e.g. saying "baf" for bath is normal at this age but "ba" for bath is not) 			
14	 Say words with two (e.g. a-pple) and three syllables or beats (e.g. butt-er-fly) Missing a syllable in <u>SOME</u> three syllable words is normal 			
15	Speak clearly enough to be understood by parents at least 75% of the time			
16	Speak clearly enough to be understood by unfamiliar people 50-75% of the time The child's ability to be understood will vary depending on what they are saying and who they are saying it to			
	Refer for any "no" responses in Section 1			
Section 2				
		YES	NO	

Niagara Children's Centre Birth to School Start Speech-Language Pathology Referral Checklist – By 36 Months (3 years)

1	Have an unusual voice quality (e.g. nasal, hoarse and scratchy; or always sounds like they have a cold when they do not have a cold; breathy/sounds like a lot of air comes out when talking; voice sounds strained)?	
2	Stutter: repeat words or sounds (e.g. "L L L") or syllables (e.g. "da da daddy"), prolong sounds (e.g. mmmm-mommy) or get stuck on sounds in words (e.g. "ball")	
3	Have limited interest in people (e.g. has limited smiling, laughing, making eye contact, or	
	responses to a person's speech/facial expressions/gesture; seems more interested in	
	objects than people's faces)	
4	No longer have social or communication skills they once did (e.g. is no longer smiling and	
	laughing, is no longer making noises)	
5	Often use someone's hand as a tool in order to request something (e.g. places an adult's	
	hand on objects to request opening containers or activating toys)	
6	Often repeat other people's phrases or sentences in a meaningless way (e.g. may repeat	_
	your question instead of answering it, parent says "what's that?" and child responds	
	"what's that?")	
7	Often repeat "whole phrases", "memorized sentences", or "scripts" heard originally from	
	people, TV shows, movies, or books when these phrases do not seem relevant to the	
	situation AND has difficulty using words appropriately in everyday situations (e.g. to	
0	communicate their wants and needs)	
8	Have big reactions to unusual fears (e.g. fears noises, moving objects, weather) AND	
0	does not seek/initiate getting comfort from adults (e.g. does not reach for parent)	
9	Move their fingers, hands, or body in an odd or repetitive way (e.g. repeatedly flaps	
10	their hands, stiffens fingers during play or rocks body <u>frequently</u> throughout the day)	
10	Have limited interest in toys or use toys/objects in an unusual, unexpected or repetitive	
	way (e.g. <u>only</u> lines up toys or <u>only</u> examines toy parts rather than play with them in the	
	intended manner; spins, smells, opens/closes parts excessively; repeats the same steps	
	with a toy over and over; stares along the edges of objects; dangles string or holds items	
11	closely in front of their eyes; notices fans and light switches in every room) Often complete MANY activities in a special way or certain order and become very	
11		
	distrossed if the activity is interrupted (a guinsists on routines or has to complete	
	distressed if the activity is interrupted (e.g. insists on routines or has to complete activities in a certain way or sequence; insists you must play with a toy in a certain way	
	activities in a certain way or sequence; insists you must play with a toy in a certain way	
12	activities in a certain way or sequence; insists you must play with a toy in a certain way and is difficult to comfort if even small changes occur)	
12	activities in a certain way or sequence; insists you must play with a toy in a certain way and is difficult to comfort if even small changes occur) Show an intense interest in letters or numbers or specific topics/activities (e.g. dinosaurs,
